

LESSON IN VIOLENCE

We are a german Thrash Metal band from Schweinfurt, Bavaria. Lesson in Violence was born in summer 2019, named after a song by Exodus. It is our aim to deliver fuckin good Thrash Metal without any triviality that goes straight through the heart. "Violence in music ... and nowhere else!"

If you like it fast and straight and you prefer some old-school-thrash-riffings without any cosmetics or compromises, then lend us your ears until they bleed!

In February 2022 we signed a record deal with [Iron Shield Records](#) Berlin and released our first album "The Thrashfall of Mankind". After playing several successful shows with bands like Bodyfarm, Cypcore, Ektomorf, Crisix and Profanity. At this time we are working on our second album which will be released in 2024.
